VENUE:

MAKE IT HAPPEN STAGE

PALAIS DES FESTIVALS  
CANNES, FRANCE

Make it happen by joining the World Urban Campaign, a catalytic engagement and action platform led by UN-HABITAT, the United Nations Human Settlements Programme, to improve 1,000 Cities, 1 Billion Lives by 2030. Together, we will showcase solutions for #Urban Resilience facing #Urban Crises around the world and take action.

UN-HABITAT works in +90 countries and cities around the world but jointly, we can achieve higher impacts on the ground through compelling knowledge and data, innovation, effective processes to improve housing and urban infrastructure, water and sanitation, energy and mobility, urban safety, and accelerate the implementation of Sustainable Development Goals.

Panelists will discuss high impact actions, in light of pressing global issues, and the critical role for urban innovators, real estate and operators in cities around the world.
